Welcome

It is with great pleasure to welcome you to the 2019 Dakota Power Group's 15th Annual Production Sale.

As a group we work together to offer you a set of bulls and females that are functional and meet today's industry needs. It is a pleasure to work together as a group and bring you a set of cattle that are similar in type and kind, as our philosophies in raising cattle are on the same track. We aim to please, our goal is to offer you the best set of cattle, numbers and genetics available at one place at one time.

As always, we are offer to take home and offer free keep until after semen testing has been completed in April. We offer free delivering within a 250-mile radius and will work with you in the event the bulls have further to go. You will be able to view all bull online on our websites or on DV Auction. We also invite you to our places and evaluate prior to the sale, visitors are always welcome.

As a group, each and every year we expect to offer you a set of bulls superior to those before. This set of bulls will have what you are looking for. Look through the offering, find what you like and give any of us a call to discuss your needs. We are always happy to lend a hand in finding the right bull and genetics to fit your operation. We continually hear past customers say our bulls hold up well during and after breeding season. We strive to produce functional cattle which work in our herd and, more importantly, in yours!

This will be the first time we have offered bred females from the heart of the replacement pen. These females have been AI bred and followed up to the ABS leased bull TNT Union. The heifers have had both round of Scour Bos and had two rounds of Vira Shield 6 VL5 HB along with all calf hood vaccinations.

We are very excited about this 2019 offering. On February 11th, we will bring another great group of bulls and bred heifers to offer you a superior set of genetics.
