SALE TERMS
All cattle sell under the recommended Sale Terms and Conditions of the American Simmental Association and are available by request. 1/3 semen interest will be retained by breeder on all lots.

GENOMIC TESTING
All bulls have been LD-genomic tested, parent verified and have the genomics entered into their EPD's in the catalog.

DELIVERY
Free delivery within 300 miles for all bulls purchased. We will assist buyers in coordinating loads and make the most economical trucking arrangements possible. The females will need to be picked up within a few days of the sale there is no delivery of the heifers. We will provide free keep on the bulls until April 1, 2022. After April 1, 2022 there will be a charge of $2.00 per day.

GUARANTEE
Bulls will be 100% guaranteed to semen test and breed. If bulls are left at our Ranch to feed until April 1, 2022, risk is at the buyer's expense. It is suggested that all bulls be insured.

CATALOG DESIGN BY ADDISON K DESIGN CO.

WELCOME

TO THE DAKOTA POWER BULL & FEMALE SALE

First and foremost, Triple H Simmentals would like to invite you to the 2023 Dakota Power 19th Annual Production Sale. Our family would like to express our sincere gratitude to our present, past and future customers for all your continued support throughout the years! We appreciate you.

Again, this year we will be holding the sale at our farm ½ mile East of Hannaford. The bulls and females will be penned there for your viewing, and we will head into Hannaford at 2:30 pm to The Mercantile to hold the video auction. The cattle will be available for viewing Saturday 10 am to 6 pm and Sunday morning until sale time. We will have refreshments and goodies before the sale. We ask that you please stay after the sale and enjoy a complimentary beef meal, fellowship and hospitality. It is SUPER BULL SUNDAY, and we will have a couple of TVs set up to watch the game.

As always, we offer free keep until after semen testing has been completed in April. We offer free delivering within a 300-mile radius and will work with you in the event the bulls have further to go. You will be able to view all bulls online on our website or on DV Auction. We also invite you to our place and evaluate prior to the sale, visitors are always welcome.

Every year we expect to offer you a set of bulls superior to those before through AI, Embryo Transfer and Genomic Testing. This set of bulls will have what you are looking for. Look through the offering, find what you like and give any of us a call to discuss your needs. We are always happy to lend a hand in finding the right bull and genetics to fit your operation. We continually hear past customers say our bulls hold up well during and after breeding season. We strive to produce functional cattle which work in our herd and, more importantly, in yours!

The bred females that we are offering are from the heart of our replacement pen. Our cattle are selected for strong maternal traits, udder quality, fertility, fleshing ability, docility, correct structure and performance that are bred into them with predictability. The heifers have had both rounds of Scour Bos and two rounds of Vira Shield 6 VL5 HB along with all calf hood vaccinations. We feel these females will go on to make great cows.

We are very excited about this 2023 offering. On Super Bull Sunday February 12th, we will bring another great group of bulls to offer you a superior set of genetics.

THE HANSON FAMILY
TRIPLE H SIMMENTALS
